

## **Brief Partnership Assessment**

Using the kinds/degrees of partnerships presented, decide which one describes the partnership

Yes	No	Ask Yourself .....
		Was any thought given to identifying required skills and personal attributes of members?
		Is there a strategic/program plan in place?  If 'no', check off the components you believe you need in your plan. (See 'A Logic Model')
		Is there a partnership agreement in place?  If 'no' check off the components you believe you need in your agreement. (See 'Components of an Effective Partnership Agreement')

If you answered 'no' to any of the three questions, it would be a good idea to start there.
